17. A method for assembling a golf practice device, comprising:

providing a first target;

attaching a pair of supports to the first target by pivotable connections;

**RECEIVED**

**OCT 25 2004**

TECHNOLOGY CENTER R3700

adjusting the angle between the first target and the pair of supports; and  
tightening the pivotable connections to fix the angle;  
attaching a second and a third target to the first target, the second target  
being smaller than the first target and the third target being smaller than the  
second target;  
providing straps; and  
attaching the second and third targets to the first target by the straps.
